DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

“Mounting planes” lacks antecedent to “mounting plates”, two distinct structures. See also claim 6.

Claim 7 lacks antecedent to “mounting portions”, found in claim 6.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by any one of Yagasaki et al., Maruoka, and Nebu et al..

5. Claims 4 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by either Maruoka or Nebu et al..

See spacers 18 and 10, respectively.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 2-3, 9-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over any one of Yagasaki et al., Maruoka and Nebu et al., each separately in view of Armstrong

“Integrally formed” is not limited to --one piece--, but conveys --attached-- per dictionary definitions.

It would have been obvious to one of ordinary skill to provide in each of the references above bosses 60,62 as taught by Armstrong in order to protect the windshield from damage.

9. Claims 5, 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over any one of Yagasaki et al., Maruoka and Nebu et al. each separately in view of Armstrong as applied to claims 2 and 9 above, and further in view of Vezza.

Art Unit: 3612

It would have been obvious to one of ordinary skill to provide in the referenced combinations above spacers 9 as taught by Vezza in order to space the windshield from its mounting structure in order to reduce frictional damage, for example.

Allowable Subject Matter

10. Claims 6-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

11. Claims 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
